Request Log

All SDE Requests are stored as a text file in the _logs\requests folder.

Request Log				
Date	Time	ms	Resource	Method
2020-04-27	15:35:36	140	customers	get
2020-04-27	15:36:17	562	vendors	get
2020-04-27	15:36:48	765	vendors	get
2020-04-27	15:50:59	921	products	get
2020-04-27	15:51:11	499	products	get
2020-04-27	15:52:15	359	products	get
2020-04-27	15:52:29	499	products	get
2020-04-27	16:07:36	671	products	get
2020-04-27	16:08:35	577	products	get
2020-04-27	16:09:04	921	products	post
2020-04-27	16:09:23	843	products	get
2020-04-27	16:09:34	812	products	get
2020-04-27	17:13:33	171	customers	get
2020-04-27	18:35:59	673	customers	get
2020-04-27	22:29:23	875	customers	get
2020-04-27	22:29:27	718	customers	get
2020-04-28	14:27:28	177	customers	get

Buttons

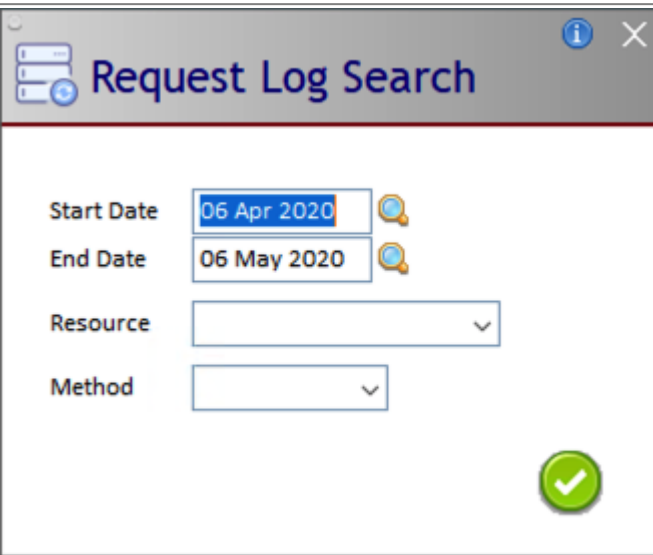

There are five buttons on the Error Log screen.

	The Print button will print the errors.
	The Purge button will clear the Requests made more than 30 days ago. When clicked it will prompt to "Purge Requests more than 30 days old?". When YES is chosen it will clear the folder of the old Requests and re-display the current ones.
	The Search button will prompt for search criteria.

Sage Data Exchange

Purge Requests more than 30 days old?

Yes No

	The Textbox button will pop up a window to view the Request.	 The screenshot shows a 'Request Log Search' window with the following fields: Start Date (06 Apr 2020), End Date (06 May 2020), Resource (dropdown), and Method (dropdown). A green checkmark icon is visible in the bottom right corner.
	The Repost button will repost the Request.
